

TOWN OF ACTON INTERCEPT FIRE/RESCUE POLICY

Purpose:

It is the intent of this policy to establish a guideline for assessing a fee of \$375.00 to communities that call on Acton Fire-Rescue solely for use of our Paramedic Services and not for transporting the patient.

Exceptions:

1: This fee will not be implemented in cases where Acton Fire-Rescue was called mutual aid for an uncovered call, multiple call situations, or in cases of multiple patients.

2: This fee will not be implemented in cases where Acton Fire-Rescue transported the patient and is able to recover fees through normal billing means.

**** This fee is in no way an attempt to deter or discourage communities from utilizing Acton Fire-Rescue for a Paramedic when advanced care is necessary. The intent is to recover fees incurred by Acton Fire-Rescue for our services when used for a non-billable response****

Adopted 12/05/2017
